

Are you betting on a sure thing?

The question is ...
what is "a sure thing"?

What makes craps dice so special?
To prevent some numbers from occurring more frequently than others, dice used in crap games in Las Vegas are manufactured to a tolerance of 0.0002 inches, less than 1/17 the thickness of a human hair.

Is a penny toss inherently rigged?
Yes, but not specifically intentionally - If you toss a penny 10,000 times, it will not be heads 5,000 times, but more like 4,950. The heads picture weighs more, so it ends up on the bottom more often. Still, one wouldn't recommend betting one's life on those odds!

These are even chances. So what's a **sure** thing? A sure thing is something you can bet your life on, literally. I know something that I think is more dependable than the sun coming up tomorrow morning.

Trivia for Monday January 13, 2003 from trivia.editor@arcamax.com

It has been said that "There's not more to this life; there's more **than** this life." This life is the time when we will decide where we spend eternity. Like TRUTH sings, some people just *think* they're "heaven bound." Or are you? Or maybe you don't know for sure. John 3:16 says, "*God so loved the world (that includes you) that he gave his one and only Son (Jesus), that whoever (you) believes in him shall not perish but have eternal life.*" And in 1John 5:13 it says, "These things have I written unto you that believe on the name of the Son of God; that ye may **KNOW** that you have eternal life." That makes it a sure thing... if you really believe in Jesus. When this life and this earth are ended, Jesus will still be there. When God says it, it is more sure than the sun coming up tomorrow.
